Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR Processing Notes for #3471

National Congregations Study: Cumulative File, 1998, 2006-2007, 2012, 2018-2019, [United States]

DS1: Cumulative (1998, 2006-07, 2012, and 2018-19) Cross-Sectional Data File

1. **Undocumented Codes:** The variables **BRANCH_18**, **CLERRACE2**, **CNSLTDOD**, **CNSLTPER**, **FTSTFAI_12**, **PTSTFAI**, and **SAMEMUS_18** contain undocumented values which ICPSR has labeled "Undocumented code". No additional information was provided.
2. **Value Label Discrepancies:** Variables **TAXRISK** and **GETPERM1** have duplicate value labels. However, no additional information was provided.
3. **Case Classifications:** The variable **SET** classifies each case into one of fourteen categories based on whether the case was part of a panel survey. Please refer to the P.I. Documentation for detailed coding information.
4. **Open-Ended Responses Not Included:** Verbatim responses are not included in the public dataset. Several sets of Wave I open-ended responses for social service programs, congregational groups, and other items were recoded by the data producer to ensure comparability between Waves I, II, III, and IV. Researchers interested in working directly with the verbatim responses should contact the Principal Investigator to arrange access.
5. **Additional Information:** For additional information on the National Congregations Study, please visit the [National Congregations Study](#) website.

National Congregations Study: Cumulative File, 1998, 2006-2007, 2012, 2018-2019, [United States]

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

Cumulative (1998, 2006-07, 2012, and 2018-19) Cross-Sectional Data File

CASEID: Case ID

Case number

This variable has 5,333 valid cases out of 5,333 total cases.

Location: 1-4 (width: 4; decimal: 0)

Variable Type: numeric

YEAR: Year of data collection

Four-digit year of data collection

Value	Label	Unweighted Frequency	%
1998	-	1234	23.1%
2006	-	1506	28.2%
2012	-	1331	25.0%
2018	-	1262	23.7%
	Total	5,333	100.0%

This variable has 5,333 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Mean: 2008.49
- Median: 2006.00
- Mode: 2006.00
- Minimum: 1998.00
- Maximum: 2018.00
- Standard Deviation: 7.19

Location: 5-8 (width: 4; decimal: 0)

Variable Type: numeric

REGION: Geographical region

Region in which congregation is located -- Remarks: See Statistical Abstracts (any edition), U.S. Bureau of the Census, for a list of states within regions.

Value	Label	Unweighted Frequency	%
1	New England or Mid-Atlantic	793	14.9%
2	East North Central or West North Central	1346	25.2%
3	South Atlantic, East South Central, or West South Central	2190	41.1%
4	Mountain or Pacific	1004	18.8%
	Total	5,333	100.0%

This variable has 5,333 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 1.00
- Maximum: 4.00

Location: 9-9 (width: 1; decimal: 0)

Variable Type: numeric

POS1: Respondent position in congregation (POS1), collapsed

What is your position in this congregation? Remarks: This item identifies the position of the key informant.

Value	Label	Unweighted Frequency	%
1	Primary congregational leader	3592	67.4%
2	General congregational leader	418	7.8%
3	Music	13	0.2%
4	Education	45	0.8%
5	Youth & young adults	28	0.5%
6	Adult/family/outreach	27	0.5%
7	Sick/bereaved	10	0.2%
8	Missions	6	0.1%
9	Spanish-speaking/Hispanic	0	0.0%

11	Lay leader	275	5.2%
12	Building caretaking	8	0.2%
13	Other	37	0.7%
14	Multiple roles	35	0.7%
Total		5,319	99.7%
Value	Missing Data	Unweighted Frequency	%
.	-	14	0.3%
Total		14	0.3%

This variable has 5,319 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 1.00
- Maximum: 14.00

Location: 10-11 (width: 2; decimal: 0)

Variable Type: numeric

RTENURE: Number of months respondent has been actively involved with congregation

For how long have you been actively involved with this congregation? Remarks: Respondents were asked to report the number of years and months they have been involved. We converted their responses into the total number of months.

Value	Label	Unweighted Frequency	%
0	-	4	0.1%

Variable Type: numeric

(Range of) Missing Values: -3 , -2 , -1 , .

HAVEDEN: Congregation is affiliated with a denomination

Is your congregation formally affiliated with a denomination, convention, or some similar kind of association? Remarks: This variable is coded 1 for congregations that we knew to be affiliated with a denomination even if the informant responded "No" to the question.

Value	Label	Unweighted Frequency	%
1	Yes	4584	86.0%
2	No	749	14.0%
	Total	5,333	100.0%

This variable has 5,333 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 1.00
- Maximum: 2.00

Location: 23-23 (width: 1; decimal: 0)

Variable Type: numeric

DENOM: Denominational affiliation - first mention (revised)

[1998 wording] Please tell me the names of all denominations or other associations that your congregation belongs to.

[2006-07 and 2012 wording] Please tell me the name of your denomination or other association. This item was asked only if the congregation reported a denominational affiliation (HAVEDEN=1). Congregations for which HAVEDEN = 2 are coded 99 on DENOM. Beyond DENOM, several additional denomination and religious tradition variables (DENCODE, DENCODE3, TRAD3) were constructed from the verbatim responses to this item and other information. Congregations were placed in religious families on these additional variables whatever their response to HAVEDEN. Analysts wishing to build an aggregate religious tradition variable other than TRAD3 need to use DENOM in conjunction with DENCODE to place congregations appropriately. Previous versions of the public NCS dataset included a more detailed version of DENOM (called DENOM1 in previous datasets).

Value	Missing Data	Unweighted Frequency	%
.	-	9	0.2%
	Total	9	0.2%

This variable has 5,324 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 1.00
- Maximum: 99.00

Location: 24-25 (width: 2; decimal: 0)

Variable Type: numeric

DENCODE: Denominational affiliation - collapsed 1

Denominational affiliation, collapsed -- Remarks: DENCODE combines the information from DENOM1 and TRAD to create an aggregated religious family variable. Note that DENCODE places congregations in a category if the religious tradition of the congregation was clear, even if HAVEDEN=2. This coding mainly affected independent Baptist congregations, which are assigned to a Baptist category on DENCODE even if they reported no formal affiliation on HAVEDEN.

Value	Label	Unweighted Frequency	%

Location: 28-29 (*width:* 2; *decimal:* 0)

Variable Type: numeric

TRAD3: Religious tradition - collapsed

Religious Tradition, collapsed -- Remarks: TRAD3 uses all available information to place congregations into very broad religious traditions. "Black Protestant" (TRAD3=3) means that a congregation is affiliated with one of the seven major denominations that are predominantly African American or that the congregation is Protestant with a membership at least 80% African American (BLACKPCT=80 or higher). As broad religious traditions, "White conservative, evangelical, or fundamentalist" (TRAD3=2) and "White liberal or moderate" (TRAD3=4) do not specify racial composition and may include congregations without a racial majority White.

Value	Label	Unweighted Frequency	%
1	Roman Catholic	1287	24.1%
2	White conservative, evangelical, or fundamentalist	2001	37.5%
3	Black Protestant	696	13.1%
4	White liberal or moderate	1138	21.3%
6	Non-Christian	211	4.0%
Total		5,333	100.0%

This variable has 5,333 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Maximum: 6.00

Location: 30-30 (width: 1; decimal: 0)

Variable Type: numeric

LOCALAFF: Affiliated with local association of congregations

Is your congregation affiliated with any local association of congregations such as a local council of churches? Remarks: In 1998, the skip instruction attached to HAVEDEN was incorrect. When HAVEDEN=2, informants should have been asked item 9, but instead interviewers were directed to item 10. Because of this error, item 9 was asked only of congregations who reported an affiliation with a denomination. LOCALAFF therefore should be used with caution and interpreted appropriately.

Value	Label	Unweighted Frequency	%

- Maximum: 2.00

Location: 53-53 (width: 1; decimal: 0)

Variable Type: numeric

MULTISITE_2: Multisite status of congregation with added clarification

In 2018-19, the variable MULTISITE_2 was added to offer more specificity to the above MULTISITE_1 variable. If a congregation answered yes to MULTISITE_1, they were then asked if all of their services took place in the same building or campus (SAMEBLDG). Congregations reporting all services took place in the same building or campus (SAMEBLDG = 1) were coded NO on MULTISITE_2. This means that in order to examine trends over time, researchers should use the MULTISITE_1 variable, which is comparable between 2012 and 2018-19. However, in order to get a more specific and targeted meaning of a "multi-site congregation" in the Wave IV data, we recommend using MULTISITE_2.

Value	Label	Unweighted Frequency	%

SAMESER_18: People in the worship services at these locations hear the same sermons or messages, either via live broadcast or a recording (2018-19)

Do people in worship services at these locations hear the same sermons or messages, either via live broadcast or a recording?

Remarks: In 2018-19, this item was asked only if congregations reported they were multi-site (MULTISITE_1 = 1) and reported that services do not take place in the same building or campus (SAMEBLDG = 2 and thus MULTISITE_2 = 1).

Value	Label	Unweighted Frequency	%

Location: 71-71 (width: 1; decimal: 0)

Variable Type: numeric

NUMTOTAL: Number of people associated with congregation in any way

How many persons would you say are associated in any way with the religious life of this congregation - counting both adults and children, counting both regular and irregular participants, counting both official or registered members and also participating nonmembers. What is the total number of persons associated with this congregation to any degree at all? Remarks: In 1998 and 2006-07 a single number response was accepted. In 2012 and 2018-19 either a single number or a range was accepted. When ranges were accepted, the average was used as NUMTOTAL.

NUMADLTS: Number of regularly participating adults in congregation

How many adults - people 18 years or older - would you say regularly participate in the religious life of your congregation?

Remarks: Because NUMADLTS was used to create weighting variables, we imputed a value to NUMADLTS for cases with missing data. IMPSIZE is coded 1 for cases for which NUMADLTS was imputed. In 1998 and 2006-07 a single number response was accepted. In 2012 and 2018-19 either a single number or a range was accepted. When ranges were accepted, the average was used as NUMADLTS.

ADLTCHG: Number of regularly participating adults increased, decreased, or remained about the same from two years ago

[2006-07 wording] Compared with two years ago - that is, this time in 2004 - has the number of regularly participating adults increased, decreased, or remained about the same? -- [2012 and 2018-19 wording] Compared with two years ago - that is, this time in 2010 - has the number of regularly participating adults increased, decreased, or remained about the same? Remarks: For 2006-07, this item and the following one were used to create CHANGE (see below). In 2012 and 2018-19, this item was asked only if a specific value was not given for NUMADLTS2. Although the same item wording was used in both waves, this item was asked of different subsamples of congregations in 2006-07 compared to 2012. To reduce confusion, we maintain two different variables. Analysts could use NUMADLTS, NUMADLTS2, ADLTCHG, and CHANGE to create a variable for 2006-07, 2012, and 2018-19 that captures the change in participating adults for the maximum possible congregations, and allows comparison over time.

Value	Label	Unweighted Frequency	%
1	Increased	71	1.3%
2	Remained about the same	64	1.2%
3	Decreased	36	0.7%
Total		171	3.2%
Value	Missing Data	Unweighted Frequency	%

CLERGSEX: Gender of head or senior clergyperson

Is this person male or female? Remarks: In 1998, 2006-07, and 2012, this item was asked only if the congregation had one head or senior clergy person (i.e., if CLERGONE=1). In 2018-19 this item was asked only if the congregation had one or two person(s) as the head(s) or senior clergy person(s) (i.e., if CLERGONE=1 or if CLERGONE=2, LEADSIT=2, and CLDRNUM=2 (two person co-leader situation). If the congregation reported having two co-leaders (LEADSIT=2 and CLDRNUM=2), characteristics of one of the co-leaders were recorded in this series of questions (CLERGSEX through CLERBLOG). The characteristics of the other co-leader were recorded in an identical series of questions below (CLERG2SEX through CLER2BLOG). The key informant decided which co-leader to describe first.

Value	Label	Unweighted Frequency	%

Location: 124-125 (width: 2; decimal: 0)

Variable Type: numeric

(Range of) Missing Values: -3 , -2 , -1 , .

CLERRACE: Race of head or senior clergyperson

What race or ethnicity [are you/is this person]? Remarks: See remarks for item 16a. Responses of "5, Other" were re-coded when possible, based on verbatim specifications of "Other". For example, persons of European, Middle Eastern, or North African descent were coded as "1, White"; other persons of African descent were coded as "2, Black or African American"; persons from Mexico, Central America, or South America were coded as "3, Hispanic"; and "Korean, Japanese, Indian (if clearly from India), Polynesian" were coded as "4, Asian or Pacific Islander". Verbatim responses may be requested via a restricted-data access agreement.

Value	Label	Unweighted Frequency	%

ORIGOTH: Hispanic/Latino head or senior clergy person national origin - other specify

Specification of other national origin for head or senior clergyperson. Remarks: This item was only asked if CLERGONE = 1. These items were constructed by coding verbatim specifications of other national origin if CLERORIG = 9, 10, or 11. ORIGCA specifies national origin for clergy from Central America (CLERORIG=9), ORIGSA specifies national origin for clergy from South America (CLERORIG=10), and ORIGOTH specifies national origin for clergy from other countries (CLERORIG=11). All country codes are based on ISO- 3166 codes used by the UN, with the exception of the unspecified code (10010) that is unique to this dataset.

HDEGREE12: Highest degree completed by head or senior clergyperson

Highest degree completed -- Remarks: This item was asked only if CLERGONE=1 and the head clergyperson had one or more college, university, or professional degrees (CLERGDEG=1). The question generated a series of verbatim answers, with respondents able to list up to three degrees. CLGDEGLVL1-3, CLGDEGREL1-3, and HDEGREE were coded from these verbatim responses. HDEGREE also incorporated responses to item 15n (CLERGHS), as applicable. Verbatim responses may be requested via a restricted-data access agreement. See "Remarks" under the 2018-19 version of these variables to understand differences between the 2012 and 2018-19 degree variables.

Variable Type: numeric

C4YRDEG: Head or senior clergyperson has 4-year degree

[Do you/Does this person] have a four-year college degree? Remarks: See remark in item 16a (CLERGSEX).

Value	Label	Unweighted Frequency	%
1	Yes	1043	19.6%
2	No	148	2.8%
	Total	1,191	22.3%

Value	Missing Data	Unweighted Frequency	%
-3	No answer	0	0.0%
-2	Don't know	0	0.0%
-1	Refused	0	0.0%
.	-	4142	77.7%
	Total	4,142	77.7%

This variable has 1,191 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 1.00
- Maximum: 2.00

Location: 194-195 (width: 2; decimal: 0)

Variable Type: numeric

(Range of) Missing Values: -3 , -2 , -1 , ..

CGRADEG: Head or senior clergyperson has graduate or professional degree

[Do you/Does this person] have any graduate or professional degrees beyond the four-year college degree? Remarks: See remark in item 16a (CLERGSEX). This item was asked only if the head clergyperson had a four-year college degree.

Value	Label	Unweighted Frequency	%
1	Yes	865	16.2%

Value	Label	Unweighted Frequency	%
2	No	162	3.0%
	Total	1,027	19.3%
Value	Missing Data	Unweighted Frequency	%
-3	No answer	0	0.0%
-2	Don't know	0	0.0%
-1	Refused	0	0.0%
.	-	4306	80.7%
	Total	4,306	80.7%

This variable has 1,027 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 1.00
- Maximum: 2.00

Location: 196-197 (width: 2; decimal: 0)

Variable Type: numeric

(Range of) Missing Values: -3 , -2 , -1 , .

CLGDEGLVL1_18: CLGDEGLVL1_18 Level of first degree mentioned

What degree or degrees? Remarks: These were coded from verbatim answers to the degree question. These variables are not directly analogous to CLGDEGREL1-3_2012 because the 2012 answers included any college degree whereas in 2018-19 we asked only about graduate degrees. Also, the coding scheme for the 2012 degree variables are more granular than the 2018-19 coding scheme (see schemes above to identify differences).

Value	Label	Unweighted Frequency	%
3	Master's degree (other than Master's of Divinity/Bachelor's of Divinity)	268	5.0%
4	Master's of Divinity/Bachelor's of Divinity degree	386	7.2%
5	Doctoral degree	79	1.5%
9	Can't tell/doesn't say	54	1.0%
10	Named degree lower than graduate or professional degree	58	1.1%
	Total	845	15.8%

Value	Missing Data	Unweighted Frequency	%
.	-	4488	84.2%
	Total	4,488	84.2%

This variable has 845 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 3.00
- Maximum: 10.00

Location: 198-199 (width: 2; decimal: 0)

Variable Type: numeric

CLGDEGLVL2_18: CLGDEGLV12_18 Level of second degree mentioned

What degree or degrees? Remarks: These were coded from verbatim answers to the degree question. These variables are not directly analogous to CLGDEGREL1-3_2012 because the 2012 answers included any college degree whereas in 2018-19 we asked only about graduate degrees. Also, the coding scheme for the 2012 degree variables are more granular than the 2018-19 coding scheme (see schemes above to identify differences).

Value	Label	Unweighted Frequency	%
3	Master's degree (other than Master's of Divinity/Bachelor's of Divinity)	111	2.1%
4	Master's of Divinity/Bachelor's of Divinity degree	95	1.8%
5	Doctoral degree	95	1.8%
9	Can't tell/doesn't say	32	0.6%
10	Named degree lower than graduate or professional degree	35	0.7%
	Total	368	6.9%
Value	Missing Data	Unweighted Frequency	%
.	-	4965	93.1%
	Total	4,965	93.1%

This variable has 368 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 3.00
- Maximum: 10.00

Location: 200-201 (width: 2; decimal: 0)

Variable Type: numeric

CLGDEGLVL3_18: CLGDEGLV13_18 Level of third degree mentioned

What degree or degrees? Remarks: These were coded from verbatim answers to the degree question. These variables are not directly analogous to CLGDEGREL1-3_2012 because the 2012 answers included any college degree whereas in 2018-19 we asked only about graduate degrees. Also, the coding scheme for the 2012 degree variables are more granular than the 2018-19 coding scheme (see schemes above to identify differences).

Value	Label	Unweighted Frequency	%
3	Master's degree (other than Master's of Divinity/Bachelor's of Divinity)	21	0.4%
4	Master's of Divinity/Bachelor's of Divinity degree	9	0.2%
5	Doctoral degree	39	0.7%
9	Can't tell/doesn't say	10	0.2%

Value	Label	Unweighted Frequency	%
10	Named degree lower than graduate or professional degree	11	0.2%
	Total	90	1.7%
Value	Missing Data	Unweighted Frequency	%
.	-	5243	98.3%
	Total	5,243	98.3%

This variable has 90 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 3.00
- Maximum: 10.00

Location: 202-203 (width: 2; decimal: 0)

Variable Type: numeric

CLGDEGREL1_18: CLGDEGREL1_18 First degree religious in content

What degree or degrees? Remarks: These were coded from verbatim answers to the degree question. These variables are not directly analogous to CLGDEGREL1-3_2012 because the 2012 answers included any college degree whereas in 2018-19 we asked only about graduate degrees. Also, the coding scheme for the 2012 degree variables are more granular than the 2018-19 coding scheme (see schemes above to identify differences).

Value	Label	Unweighted Frequency	%
0	No	151	2.8%

	Total	90	1.7%
Value	Missing Data	Unweighted Frequency	%
.	-	5243	98.3%
	Total	5,243	98.3%

This variable has 90 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 0.00

- Maximum: 9.00

Location: 206-206 (width: 1; decimal: 0)

Variable Type: numeric

HDEGREE18: HDEGREE18 Highest degree completed

Highest degree completed -- Remarks: This item was coded from verbatim answers to the degree question, and also incorporated responses to C4YRDEG and CGRADEG, as applicable. This is similar but not identical to HDEGREE_12 from 2012. Analysts studying change over time should pay close attention to the differences between the two variables.

Value	Label	Unweighted Frequency	%
1	Less than four year college degree	148	2.8%
2	Four year college degree	157	2.9%
3	Master's degree (other than Master's of Divinity/Bachelor's of Divinity)	208	3.9%
4	Master's of Divinity/Bachelor's of Divinity degree	389	7.3%
5	Doctoral degree	202	3.8%
9	Can't tell	95	1.8%
	Total	1,199	22.5%
Value	Missing Data	Unweighted Frequency	%
.	-	4134	77.5%
	Total	4,134	77.5%

This variable has 1,199 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 1.00
- Maximum: 9.00

Location: 207-207 (width: 1; decimal: 0)

Variable Type: numeric

CLERGRAD: Head or senior clergyperson graduated seminary or theological school

[Have you/Has this person] graduated from a seminary or theological school? Remarks: See remark in item 16a (CLERGSEX).

Value	Label	Unweighted Frequency	%
1	Yes	2127	39.9%
2	No	507	9.5%
	Total	2,634	49.4%

This variable has 1,506 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 0.00
- Maximum: 1.00

Location: 236-237 (width: 2; decimal: 0)

Variable Type: numeric

(Range of Missing Values: -3 , -2 , -1 , .

CLERG2SEX: Second head or senior clergyperson sex

Is [the other co-leader/INITIALS #2] male or female? Remarks: In 2018-19 this and the following items (CLERG2SEX through CLER2BLOG) were asked only if the congregation reported two co-leaders as the head or senior clergy persons (i.e., if CLERGONE=2, LEADSIT=2, and CLDRNUM=2). The first set of clergy characteristic questions was answered with one co-leader in mind, the second set was asked with the other co-leader in mind. The key informant decided which co-leader to describe first.

Value	Label	Unweighted Frequency	%
1	Male	8	0.2%
2	Female	11	0.2%
	Total	19	0.4%

Value	Missing Data	Unweighted Frequency	%

FTSTAFF: Number of full-time paid staff

[1998 wording; 2006-07 and 2012 wording if head clergyperson is not full-time paid staff] How many people currently work in this congregation as full-time paid staff? [2006-07 and 2012 wording if head clergyperson is full-time paid staff] Including [you/the leader we've been talking about], how many people currently work in this congregation as full-time paid staff? Remarks: Item wording is slightly different in 1998 compared to subsequent waves. In all cases, key informants should have included themselves (or the head clergyperson) if they were full-time employees. However, beginning in 2006-07 we explicitly asked key informants to include the head clergyperson if they were paid (CLERPAID=1) and if they were full-time (CLERFT=1), and we added probes to be sure they did so. Therefore, any changes in FTSTAFF between 1998 and other years should be interpreted with caution. [2018-19 wording if head clergyperson or either co-leader is full-time paid staff] Including [you/the leader(s) we've been talking about/you and your co-leader], how many people currently work in this congregation as full-time paid staff? Remarks: Item wording is slightly different in 1998 compared to subsequent waves. In all cases, key informants should have included themselves (or the head clergyperson) if they were full-time employees. However, beginning in 2006-07 we explicitly asked key informants to include the head clergyperson if they were paid (CLERPAID=1) and if they were full-time (CLERFT=1), and we added probes to be sure they did so. Therefore, any changes in FTSTAFF between 1998 and other years should be interpreted with caution. Item wording in 2018-19 is slightly different compared to previous waves to take into account co-leader situations. Key informants were explicitly asked to include each co-leader that is paid (CLERPAID=1 and/or CLERPAID2=1) and full-time (CLERFT=1 and/or CLERFT2=1).

STF1TITL: Staff person first mention - title

What are the job titles of each of these [NUMBER FROM MINSTAFF] full-time paid staff people? Please begin with [yourself/ the senior clergy person or religious leader]. Remarks: In 2006-07, job titles (STF1TITL through STF6TITL) and subsequent details were asked when congregations had 6 or fewer full-time ministerial staff members, including a full-time head clergyperson, if applicable. In 2012, job titles (STF1TITL through STF3TITL) and subsequent details were asked when congregations had 3 or fewer full-time ministerial staff members, including a full-time head clergyperson, if applicable. STF1TITL always refers to the full-time, paid head or senior clergyperson, if the congregation has one. Other job titles (STF2TITL, STF3TITL, STF4TITL, STF5TITL and STF6TITL) correspond to the staff items below; for example, the person identified by STF2TITL is the same person identified by STF2GEND, STF2RACE, STF2HISP, STF2AGE, STF2CUT, STF2STR, STF2GRDT, STF2ATTD, STF2ORDN, and STF2MMBR.

Value	Label	Unweighted Frequency	%

- Maximum: 13.00

Location: 305-306 (width: 2; decimal: 0)

Variable Type: numeric

STF2GEND: Staff 2 gender

[2006 and 2012 wording] Thinking of [STF2TITL], is this person male or female? [2018-19 wording] [Are you/Is this second full-time paid ministerial staff person] male or female? OR [Are you/Is this full-time paid ministerial staff person] male or female? Remarks: See remarks for item 20 (STF1TITL). In 2018-19 gender (STF2GEND) and subsequent staff questions were asked about a specific ministerial staff person who is not the main leader in one of two situations: (a) when the congregation has two full-time ministerial staff people, one of whom is the leader, and (b) when there is just one full-time ministerial staff person who is not the leader. In 2006 and 2012, STF2GEND and subsequent staff questions might refer to co-leaders. In 2018-19, co-leader characteristics are asked about separately. See item CLERG2SEX and following.

Value	Label	Unweighted Frequency	%

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 4.00
- Maximum: 5.00

Location: 337-338 (width: 2; decimal: 0)

Variable Type: numeric

STF3GEND: Staff 3 gender

Thinking of [STF3TITL], is this person male or female? Remarks: See remarks for item 20 (STF1TITL). In 2018-19 gender (STF2GEND) and subsequent staff questions were asked about a specific ministerial staff person who is not the main leader in one of two situations: (a) when the congregation has two full-time ministerial staff people, one of whom is the leader, and (b) when there is just one full-time ministerial staff person who is not the leader. In 2006 and 2012, STF2GEND and subsequent staff questions might refer to co-leaders. In 2018-19, co-leader characteristics are asked about separately. See item CLERG2SEX and following.

Value	Label	Unweighted Frequency	%
1	Male	253	4.7%
2	Female	201	3.8%

STF4GEND: Staff 4 gender

Thinking of [STF4TITL], is this person male or female? Remarks: See remarks for item 20 (STF1TITL). In 2018-19 gender (STF2GEND) and subsequent staff questions were asked about a specific ministerial staff person who is not the main leader in one of two situations: (a) when the congregation has two full-time ministerial staff people, one of whom is the leader, and (b) when there is just one full-time ministerial staff person who is not the leader. In 2006 and 2012, STF2GEND and subsequent staff questions might refer to co-leaders. In 2018-19, co-leader characteristics are asked about separately. See item CLERG2SEX and following.

Value	Label	Unweighted Frequency	%
1	Male	103	1.9%
2	Female	96	1.8%

FTSTFMEN_06: Number of male full-time paid ministerial staff - ASKED ONLY IF MORE THAN 6 FULL-TIME STAFF

Of these [NUMBER FROM MINSTAFF], how many are men? Remarks: In 2006-07, items FTSTFMEN, FTSTFGRD, FTSTFATD, FTSTFORD, and FTSTFMBR were asked if congregations had 7 or more full-time ministerial staff (MINSTAFF greater than or equal to 7), including the head clergyperson, if applicable. In order to assess change over time with these items, analysts need to make the 2006-07 and 2012 versions comparable to the 2018-19 versions by incorporating the relevant information about full-time staff members in 2006-07 and 2012 into a variable that is comparable to the relevant 2018-19 variable. For example, the STF_GEND variables could be used to construct a 2006 and 2012 variable that is comparable to FTSTFMEN_18.

Variable Type: numeric

FTSCARE: Number of full-time ministerial staff who specialize in pastoral care

(If FTSSNO = 1) What is this person's area of specialization? (If FTSSNO greater than or equal to 2) Of the [NUMBER FROM FTSSNO] who specialize, how many specialize in each of the following areas of activities: Remarks: These items were asked only if the congregation had three or more full-time ministerial staff (MINSTAFF greater than or equal to 3) and if at least one of these staff members specializes in a particular area of work (FTSSPZ = 2). If FTSSNO=1, a "1" was coded in the appropriate specialization. If FTSSNO greater than or equal to 2, the number of staff members who specialized in that area was indicated in the appropriate specialization. Field interviewers were told to record the number specializing in each area without reading the categories and to use the categories as probes if necessary.

PTSTAFF: Number of part-time paid employees

[1998 and 2006-07 wording; 2012 wording if head clergyperson is not part-time paid staff; 2018-19 wording if head clergyperson or neither co-leader is part-time paid staff] How many people currently are part-time paid employees of this congregation, including people who receive regular fees for singing or other work? [2012 wording, if head clergyperson is part-time staff] Including [you/the leader we've been talking about] how many people currently are part-time paid employees of this congregation, including people who receive regular fees for singing or other work? [2018-19 wording if head clergyperson or either co-leader is part-time

paid staff] Including [you/the leader(s) we've been talking about/you and your co-leader], how many people currently are part-time paid employees of this congregation, including people who receive regular fees for singing or other work? Remarks: Beginning in 2006-07, the interviewer was instructed to confirm that the answer to PTSTAFF included the respondent, if the respondent worked part-time at the congregation. Item wording in 2018-19 is slightly different compared to previous waves to take into account co-leader situations. Key informants were explicitly asked to include each co-leader that is paid (CLERPAID=1 and/or CLERPAID2=1) and part-time (CLERFT=2 and/or CLERFT2=2).

PSTF1TITL: Part-time staff first mention - title

What are the job titles of each of these [NUMBER FROM PTMINSTF] part-time paid staff people? Please begin with [yourself/the senior clergy person or religious leader]. Remarks: In 2012 job titles (PSTF1TITL through PSTF3TITL) and subsequent details were asked when congregations had 3 or fewer part-time ministerial staff members. PSTF1TITL always refers to the head or senior clergyperson, if the congregation has one who is part-time paid staff. Other job titles (PSTF2TITL and PSTF3TITL) correspond to the staff items below; for example, the person identified by PSTF2TITL is the same person identified by PSTF2GEND, PSTF2RACE, PSTF2HISP, and following.

Value	Label	Unweighted Frequency	%

PTSPZOTHNUM: Number of part-time ministerial staff who specialize in an area not previously mentioned

Number of part time ministerial staff who specialize in an area not previously mentioned. Remarks: Verbatim responses to these questions were used to construct PTSPZOTHNUM. If the respondent reported an area of specialization that was one of the above asked about, it was recoded into the appropriate category. So the value of PTSPZOTHNUM represents the number of staff who specialize in areas other than those listed above.

SVCMNTH: Worship service month

[1998] Most recent or main worship service -- [2006-07 and 2012] Most recent or main worship service at which respondent was present (Month) -- Remarks: The variables SVCDAY and SVCMNTH were constructed using a series of items designed to identify the focal service for items 62 through 107 (see questions 20-21 on the 1998 questionnaire, question 30 on the 2006-07 questionnaire, and question 32 on the 2012 questionnaire). This series of items is identical, except that in 2006-07 and 2012 we asked the respondent whether s/he was present for the most recent service; if not, s/he was asked about the most recent service at which s/he was present. The focal service for subsequent questions is then always the most recent one attended (and thus may have occurred earlier than the past week). Respondents in congregations with zero (0) services in the past week were asked to think about the most recent worship service. Respondents in congregations with only one (1) service in the past week were asked

to think about that service (or the most recent one attended, if not in the past week). Respondents in congregations with multiple services (>=2) in the past week were asked to identify and think about the "main" service in the past week (or the most recent "main" service attended, if not in the past week).

Value	Label	Unweighted Frequency	%

TOTATTND: Total attendance (adults & children) at all weekend services

What was the total attendance, including both adults and children, at all of the worship services that took place this past weekend, including services on Friday, Saturday, and Sunday? Remarks: This item was asked only if the congregation reported more than one worship service in the past week. If a congregation had no services, TOTATTND was set at zero. Note that TOTATTND and NUMATTND may reference different time periods if the focal service for items 68 through 119 was NOT in the weekend prior to the interview (see remarks for item 61). In the 2012 cumulative dataset, we now correct a previous error in TOTATTND for 2006-07 data, where TOTATTND had been set at zero when a congregation reported only one service in the past week. Note also that multi-site congregations sometimes responded to TOTATTND with all sites in mind even if other answers referred only to one site.

ATTMORE: Number of adults who attend more than one service a week

Of the regularly participating adults in this congregation, how many would you say attended more than one of the services held during the previous seven days? Remarks: This item was asked only if the congregation reported more than one worship service in the past week. If a congregation had one or no services, ATTMORE was set at zero.

DIFFLANG: Important difference is language

Different Language (Thinking about the worship service on a typical weekend that is most different in terms of worship style from the service we've been talking about, how would you describe the main difference between these two services?) Remarks: In 2006-07, verbatim responses to this question were coded into a series of dichotomous variables, each of which indicates whether a congregation mentioned a particular type of difference. For each difference variable, a code of 1 means that a difference of that sort was mentioned in response to this question. Note that these variables are not mutually exclusive. Note also that these variables are coded at the congregation level, not at the difference level. This means that if a congregation is coded 1 on several of these variables, analysts will not be able to determine whether those codes refer to one difference or to more than one difference. The verbatim responses may be requested via a restricted-data access agreement. This item was asked only if a congregation reported important differences among weekend worship services (IMPDIFF=1). If a congregation reported no differences between weekend worship services (IMPDIFF=2), all difference variables were set at zero.

Value	Label	Unweighted Frequency	%

(Range of) Missing Values: -3 , -2 , -1 , .

HSVCMNTH: Worship service month for Hispanic service

When was your most recent [Spanish language or bilingual worship service / worship service attended primarily by Hispanic and Latino people]? (Month) Remarks: The variables HSVCDAY and HSVCMNTH were constructed using a series of items designed to identify the focal Hispanic service for items 116 through 118 (see questions 63-65 on the 2012 questionnaire). We asked the respondent whether s/he was present for the focal service; if not, s/he was asked about the most recent service at which s/he was present. The focal service for subsequent questions is then always the most recent one attended (and thus may have occurred earlier than the past week). See also remarks for ATSPSVC. Respondents in congregations with zero (0) Hispanic services in the past week were asked to think about the most recent worship service. Respondents in congregations with only one (1) Hispanic service in the past week were asked to think about that service. Respondents in congregations with multiple Hispanic worship services (>=2) in the past week were asked to identify and think about the "main" Hispanic service in the past week. If there was more than one Hispanic worship service in the past week, this item refers to the main Hispanic worship service for the congregation.

GACTION98: Group meets around social justice, neighborhood, or community issues (1998)

Social justice, neighborhood, or community issues (For what purpose or purposes do these groups meet [have these groups met]?)

Remarks: Verbatim responses were coded into a series of dichotomous variables, each of which indicates whether a congregation mentioned a group of a particular type in response to these items. In 1998, group information was gathered with multiple items designed to elicit information on groups that met monthly or more often (GRPX) versus those that met less frequently (GRPY).

These details about group purpose of the top five (5) groups for each of GRPX and GRPY were collected before asking questions about specific group types in item 155 (POLITICS through LMGAYM). Variables with the suffix "98" contain codes for groups mentioned in 1998. Note that variables in this series are not mutually exclusive. A 1998 group for women that meets for Bible study, for example, is coded 1 on both GBIBLE98 and GFEMALE98. Note also that these variables are coded at the congregation level, not at the group level. This means that, if a congregation is coded 1 on several of these variables, analysts will not be able to determine whether those codes refer to one group or to more than one group. Verbatim group descriptions may be requested via a restricted-data access agreement. If a congregation reported no groups (GRPX=2 and GRPY=2 in 1998), these variables were set at zero.

Value	Label	Unweighted Frequency	%
0	No	1005	18.8%

Location: 1202-1202 (width: 1; decimal: 0)

Variable Type: numeric

GACTION06: Group meets around social justice, neighborhood, or community issues (2006-07)

Social justice, neighborhood, or community issues (What are the three best attended groups that you haven't already mentioned?)

Remarks: Verbatim responses were coded into a series of dichotomous variables, each of which indicates whether a congregation mentioned a group of a particular type in response to these items. In 2006-07, this verbatim group information about the top three (3) groups follows and therefore excludes specifically mentioned groups in item 155 (POLITICS through LMGAYM). As a result, many fewer groups were mentioned in 2006-07 than in 1998. Because of this major difference, we created two versions of each dichotomous variable. Variables with the suffix "06" contain codes for groups mentioned in 2006-07 (item 1566.) Note that variables in this series are not mutually exclusive. A 2006-07 group for women that meets for Bible study, for example, is coded 1 on both GBIBLE06 and GFEMALE06. Note also that these variables are coded at the congregation level, not at the group level. This means that, if a congregation is coded 1 on several of these variables, analysts will not be able to determine whether those codes refer to one group or to more than one group. Verbatim group descriptions may be requested via a restricted-data access agreement. If a congregation reported no groups (OTHGRPS=2 in 2006-07), these variables were set at zero.

Variable Type: numeric

GFEMALE06: Groups specifically for women (2006-07)

Specifically for women (What are the three best attended groups that you haven't already mentioned?) Remarks: See remarks for GACTION06.

Value	Label	Unweighted Frequency	%
0	No	1282	24.0%
1	Yes	220	4.1%

Value	Missing Data	Unweighted Frequency	%
-3	No answer	0	0.0%
-2	Don't know	0	0.0%
-1	Refused	0	0.0%
.	-	3831	71.8%
	Total	3,831	71.8%

This variable has 1,502 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 0.00
- Maximum: 1.00

Location: 1245-1246 (width: 2; decimal: 0)

Variable Type: numeric

(Range of) Missing Values: -3 , -2 , -1 , ..

GFEST98: Group meets for festivals, bazaars, craft fairs, or other celebrations (1998)

Festivals, bazaars, craft fairs, or other celebrations (For what purpose or purposes do these groups meet [have these groups met]?) Remarks: See remarks for GACTION98.

Value	Label	Unweighted Frequency	%
0	No	1032	19.4%
1	Yes	48	0.9%
	Total	1,080	20.3%

Value	Missing Data	Unweighted Frequency	%
.	-	4253	79.7%
	Total	4,253	79.7%

This variable has 1,080 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 0.00
- Maximum: 1.00

Location: 1247-1247 (width: 1; decimal: 0)

Variable Type: numeric

GFEST06: Group meets for festivals, bazaars, craft fairs, or other celebrations (2006-07)

Festivals, bazaars, craft fairs, or other celebrations (What are the three best attended groups that you haven't already mentioned?) Remarks: See remarks for GACTION06.

Value	Label	Unweighted Frequency	%
0	No	1493	28.0%

.	-	61	1.1%
Total		61	1.1%

This variable has 5,272 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 1.00
- Maximum: 2.00

Location: 1334-1335 (width: 2; decimal: 0)

Variable Type: numeric

(Range of) Missing Values: -3 , -2 , -1 , .

VGAUTHR1: Voter guides author first mention

Who wrote or produced the voter guide that was distributed? Remarks: This item was asked only if congregations distributed voter guides (VOTRGUID=1). These variables were coded from verbatim responses to this item. Note that in 1998, respondents could mention only one voter guide author, while in 2006-07, respondents could mention up to three voter guide authors. Therefore, VGAUTHR1 contains data for 1998 and 2006-07, but VGAUTHR2 and VGAUTHR3 contain data only for 2006-07.

Value	Label	Unweighted Frequency	%
1	City - state government	41	0.8%

USEBLDG: Outside groups used or rented space in building, past 12 months

[1998 wording] Within the past 12 months, have there been groups, programs, or events that have no connection to your congregation but that have used or rented space in your building? This might include other congregations, Alcoholics Anonymous groups, day-care centers, or once-a-year events like fairs, concerts, or art shows. Remarks: This item was asked only of congregations that owned their own building (OWNBLDG=1). [2018-19 wording] Within the past 12 months, have there been groups, programs, or events that have no connection to your congregation but that have used or rented space in your building? This might include other congregations, AA groups, day-care centers, or once-a-year events like fairs, concerts, or art shows. Have any such groups, programs, or events used or rented space in your building in the last 12 months? Remarks: This item was asked only of congregations that owned their own building (OWNBLDG=1).

	Total	2,500	46.9%

This variable has 2,833 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 1.00
- Maximum: 2.00

Location: 1408-1409 (width: 2; decimal: 0)

Variable Type: numeric

(Range of) Missing Values: -3 , -2 , -1 , .

SOCLSERV: Congregation participated in or supported social services in past 12 months

Has your congregation participated in or supported social service, community development, or neighborhood organizing projects of any sort within the past 12 months? Please don't include projects that use or rent space in your building but have no other connection to your congregation. Remarks: In 2018-19, SOCLSERV was asked after SCLSERV2 and only if a respondent answered "no" to SCLSERV2 (SOCLSERV=2). In 2006 and 2012, the order of these questions was reversed.

Value	Label	Unweighted Frequency	%
1	Yes	2894	54.3%
2	No	1336	25.1%
	Total	4,230	79.3%

Value	Missing Data	Unweighted Frequency	%
-3	No answer	0	0.0%

-1	Refused	0	0.0%

Value	Missing Data	Unweighted Frequency	%
.	-	1103	20.7%
	Total	1,103	20.7%

This variable has 4,230 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 1.00
- Maximum: 2.00

Location: 1410-1411 (width: 2; decimal: 0)

Variable Type: numeric

(Range of) Missing Values: -3 , -2 , -1 , .

SCLSERV2: Congregation engaged in any human service projects in past 12 months

Within the past 12 months, has your congregation engaged in any human service projects, outreach ministries, or other activities intended to help people who are not members of your congregation? Remarks: This item was asked in 2006-07 and 2012 only if a respondent answered "no" to item 163 (SOCLSERV=2). The items regarding project and program details (SABUSED98 through GOVFUND2_12) were asked only if congregations reported social services. In 1998, they were asked if SOCLSERV=1; in 2006-07 and 2012, they were asked if SOCLSERV=1 or SCLSERV2=1. Therefore, even though a number of the items below are worded identically across survey waves, they were asked of different subsets of congregations. In order to assess change over time with these items, analysts need to make the later versions comparable to the 1998 versions by recoding the 2006-07 and 2012 responses to "No" or "zero" for cases on which SOCLSERV=2.

Value	Label	Unweighted Frequency	%
1	Yes	1717	32.2%

TOTPROG06A: Total number of social/human service projects or programs, past 12 months

Total number of social service programs -- Remarks: This variable is the total number of social service projects or programs mentioned in response to item 186 in 2006-07. Note that this variable contains totals for congregations who answered "yes" to either social service item (SOCLSERV=1 or SCLSERV2=1). Therefore, this item is not comparable to TOTPROG98; to compute a variable for 2006-07 that is comparable to TOTPROG98, analysts should set TOTPROG06A to zero when SOCLSERV=2. If a congregation does not have any social service programs (SOCLSERV=2 and SCLSERV2=2), TOTPROG06a was set at zero.

NUMPROG: Number social service projects/programs sponsored or participated in, past 12 months

How many [social service, human service, etc.] projects or programs has your congregation sponsored or participated in within the last 12 months? Remarks: This item was asked only if a congregation reported being involved in some social service project or program in the past 12 months (SOCLSERV=1 or SCLSERV2=1). If a congregation reported no involvement in social service projects or programs, NUMPROG was set at zero.

COLLAB_12: Collaborated with other organizations, at least one social service program, past 12 months

Congregation collaborated with other organizations on at least one of its four most important social service programs. Remarks: This variable was constructed based on answers to item 187. If a congregation reported involvement in no social or human service programs or projects within the last 12 months (NUMPROG=0), COLLAB_12 was set at missing.

Value	Label	Unweighted Frequency	%
0	No	250	4.7%
1	Yes	950	17.8%
	Total	1,200	22.5%
Value	Missing Data	Unweighted Frequency	%
.	-	4133	77.5%
	Total	4,133	77.5%

This variable has 1,200 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 0.00
- Maximum: 1.00

Location: 1520-1520 (width: 1; decimal: 0)

Variable Type: numeric

COLLBUS98: Collaborated with business on social service projects, past 12 months (1998)

Collaborated with business on social service projects (With what other organizations does your congregation collaborate on this program? (Has your congregation participated in or supported social service, community development, or neighborhood organizing projects of any sort within the past 12 months?)) Remarks: Please see P.I. documentation for detailed information on how this variable's wording has changed over time and how to analyze data across years.

PROGCOST_98: Amount congregation spent on social service programs in past 12 months (1998)

How much money, overall, did your congregation directly spend on all of these projects or programs within the past 12 months? Here, I'm asking about direct cash donations from your congregation, not counting staff time or volunteer time. Remarks: While details about social services programs (item 186) were limited to the top four programs in 2012 and 2018-19, the follow-up questions about cost, staff, volunteers, and outside funds (items 188 through 191) were applicable to ALL social services programs. Thus, PROGCOST and further social services follow-up variables for 2012 and 2018-19 can be directly comparable to those for 2006-07. Although the same wording was used in all four survey waves, this item was asked of different subsamples of congregations in 1998 versus the later survey waves (see the remark on item 183a (SCLSERV2)). If including 1998, appropriate recoding is necessary to assess change over time in response to these items. To prevent confusion, we created different versions of PROGCOST by survey wave. PROGCOST_98, PROGCOST_06, PROGCOST_12, and PROGCOST_18 contain data from 1998, 2006-07, 2012, and 2018-19, respectively. If a congregation reported no social service programs (SOCLSERV=2 in 1998; SOCLSERV = 2 and SCLSERV2 = 2 in 2006-07 and 2012), PROGCOST was set at zero. In 2018-19, for congregations that reported no social service programs (SCLSERV2=2 or SOCLSERV=2), PROGCOST was set at zero.

Variable Type: numeric

PRGSTAF1_98: Paid employee spent more than 25% of time on service programs in past 12 months (1998)

Within the past 12 months, has anyone who is paid by your congregation spent more than 25% of their work time on one or more of these projects? (Has your congregation participated in or supported social service, community development, or neighborhood organizing projects of any sort within the past 12 months?) Remarks: PRGSTAF1_98, PRGSTAF1_06, PRGSTAF1_12, and PRGSTAF1_18 contain data from 1998, 2006-07, 2012, and 2018-19 respectively. If a congregation reported no social service programs (SOCLSERV=2 in 1998; SOCLSERV = 2 and SCLSERV2 = 2 in 2006-07 and 2012; SCLSERV2=2 or SOCLSERV=2 in 2018-19), PRGSTAF1 was set at 2. Thus, there are congregations with no paid staff (either FT or PT) for which PRGSTAF1=2. This may be noteworthy for some analyses. See also remarks for items 183a (SCLSERV2) and 188 (PROGCOST_98).

Location: 1601-1602 (width: 2; decimal: 0)

Variable Type: numeric

(Range of) Missing Values: -3 , -2 , -1 , .

PRGSTAF1_18: Paid employee spent more than 25% of time on service programs in past 12 months (2018-19)

Within the past 12 months, has anyone who is paid by your congregation spent more than 25% of their work time on one or more of these projects? (Has your congregation participated in or supported social service, community development, or neighborhood organizing projects of any sort within the past 12 months?) Remarks: Please see remarks for PRGSTAF1_98.

GOVFUND2_98: Amount of money from government for social service projects, past fiscal year (1998)

How much money did your congregation receive from the government in grants, contracts, or fees during your most recent fiscal year? Remarks: GOVFUND2_98, GOVFUND2_06, and GOVFUND2_12 contain data from 1998, 2006-07 and 2012, respectively. If a congregation received no money from the government (GOVFUND1=2), GOVFUND2 was set at zero. See also remarks for items 183a (SCLSERV2) and 188 (PROGCOST_98).

OTHP RJ: Any other human service projects not previously mentioned

Does your congregation engage in any other human service projects or outreach ministries besides those you've already mentioned? Remarks: Items 196 and 196a are attempts to gather information on any additional social service programs from respondents, programs they might have neglected to mention in response to item 186. Verbatim responses to item 196a were coded into a series of dichotomous variables, each of which indicates whether a congregation mentioned a program of a particular type. We did not ask respondents to identify collaborators for programs mentioned here. Note that these variables are not mutually exclusive. A program described as "feeding the homeless," for example, is coded 1 on both PFOOD06 and PHOMELES06. Note also that these variables are coded at the congregation level, not at the program level. This means that, if a congregation is coded 1 on several of these variables, analysts will not be able to determine whether those codes refer to one program or to more than one program. Verbatim program descriptions may be requested via a restricted-data access agreement. If congregations did not report any additional social service programs (OTHP RJ=2), these variables were set at zero.

- Maximum: 2.00

Location: 1843-1844 (width: 2; decimal: 0)

Variable Type: numeric

(Range of) Missing Values: -3 , -2 , -1 , .

KNWNGRP: Affiliated with known community organizing groups

Affiliated with known community organizing groups (Is your congregation formally affiliated with a community organizing group, organization, or network? Which one?) Remarks: This item was asked only if the congregation reported being formally affiliated with a community organizing group, organization, or network (CMORGGRP=1). Verbatim responses to up to three groups mentioned were coded into KNWNGRP and KNWNPLUS to give two measures of involvement in community organizing groups. The first variable (KNWNGRP) indicates congregations who are affiliated with a group or groups that appear on a national list of known community organizing groups. Verbatim responses may be requested via a restricted-data access agreement.

Value	Label	Unweighted Frequency	%
0	No	406	7.6%

This variable has 575 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 0.00
- Maximum: 1.00

Location: 1845-1846 (width: 2; decimal: 0)

Variable Type: numeric

(Range of) Missing Values: -3 , -2 , -1 , .

KNWNPLUS: Affiliated with known and likely community organizing groups

Affiliated with known and potential community organizing groups (Is your congregation formally affiliated with a community organizing group, organization, or network? Which one?) Remarks: This item was asked only if the congregation reported being formally affiliated with a community organizing group, organization, or network (CMORGGRP=1). Verbatim responses to up to three groups mentioned were coded into KNWNGRP and KNWNPLUS to give two measures of involvement in community organizing groups. The second variable (KNWNPLUS) is more broad, and includes all those for whom KNWNGRP=1 plus congregations affiliated with groups that were unidentifiable, but, based on the group name or other information, are likely to perform community organizing activities. Verbatim responses may be requested via a restricted-data access agreement.

INCBLDG1: Received income from rental or sale of building or property in past fiscal year

[1998 and 2006-07 wording] During your most recent fiscal year, did your congregation receive any income from the sale or rent of your building or property? [2012 and 2018-19 wording] During your most recent fiscal year, did your congregation receive any income from the rent of your building or property? Remarks: In 2012 and 2018-19 the question wording removed reference to sale

of building or property. Consequently, we created two separate variables to prevent confusion. INCBLDG1 contains data from 1998 and 2006-07 (which may involve sale as well as rental of building) and RENTBLDG contains data from 2012 and 2018-19 (limited to building rental).

Value	Label	Unweighted Frequency	%

SPNDEN1: Congregation gave money to denomination in past fiscal year

[1998, 2006-07, and 2012 wording] In your most recent fiscal year, did your congregation give any money to your denomination or convention? [2018-19 wording] In your most recent fiscal year, did your congregation give any money to your denomination, diocese, or convention? Remarks: In 2018-19, SPNDEN1 included money given to a diocese. Though this may have been implicitly included in past waves, it was not explicitly included until 2018-19. Therefore, caution should be used when examining trends in SPNDEN1 across waves.

(Range of) Missing Values: -3 , -2 , -1 , .

SPNDREL2: Amount given to other religious organizations in past fiscal year

How much? (In the most recent fiscal year, did your congregation give any money to any other religious organizations or agencies, whether or not they are affiliated with your denomination?) Remarks: If a congregation did not give money to any religious organizations (SPNDREL1=2), SPNDREL2 was set at zero.

Location: 1999-2000 (width: 2; decimal: 0)

Variable Type: numeric

(Range of) Missing Values: -3 , -2 , -1 , ..

ENDOWAMT: Amount in endowment, savings account or reserve fund

How much is in it? (Does your congregation have an endowment, savings account, or other reserve fund?) Remarks: If a congregation did not have an endowment, savings account or other reserve fund (ENDOW=2), ENDOWAMT was set at zero. In 2018-19, we explicitly asked if the congregation had multiple endowments. Though congregations that had multiple endowments in past waves may have included the total value in ENDOWAMT, this was not explicitly primed until 2018-19. Therefore, caution should be used in examining trends in ENDOWAMT across waves.

SHRTWPCT: Percent of adult participants who live within a 10 minute walk of meeting place

Still thinking about the [NUMBER FROM NUMADLTS] regular adult participants, what percentage would you say live within a ten minute walk of the place where you meet? Remarks: If an informant replied with an absolute number rather than a percent, we calculated a percent for SHRTWPCT.

POORPCT1: Percent of adult participants who live in households with incomes under 25,000 per year

[1998 wording] Of the [NUMBER FROM NUMADLTS] regular adult participants, what percent would you say live in households with income under \$25,000 a year? [2006-07 wording] Still thinking about the [NUMBER FROM NUMADLTS] regular adult participants, what percent would you say live in households with income under \$25,000 a year? Remarks: If an informant replied with an absolute number rather than a percent, we calculated a percent for POORPCT1. In 2012, this item was revised to reflect a different income cut-off value (see item 241a). Thus, there are two related variables for POORPCT.

RICHPCT1: Percent of adult participants who live in households with incomes over 100,000 per year

What percent would you say live in households with income higher than \$100,000 a year? Remarks: If an informant replied with an absolute number rather than a percent, we calculated a percent for RICHPCT1. In 2012, this item was revised to reflect a different income cut-off value (see item 242a (RICHPCT2)). Thus, there are two related variables for RICHPCT.

HISPETH: Largest specific Hispanic ethnicity in congregation

What is the largest specific Hispanic ethnicity in your congregation? Remarks: This item was asked only if a congregation reported having Hispanic or Latino regular adult participants (LATINPCT>0), and generated a set of verbatim responses that were coded in HISPETH. If respondent indicated that there was no one largest group, HISPETH was set at 113 (Mixed-Diverse). Where there are multiple mentions, only the first race or ethnicity named was coded.

IMMETH: Country of origin of the largest specific immigrant group in congregation

What is the country of origin of the largest specific immigrant group in your congregation? Remarks: This item was asked only if a congregation reported having regular adult participants who were recent immigrants (IMMPCT>0), and generated a set of verbatim responses that are coded in IMMETH. If respondent indicated that there was no one largest group, IMMETH was set at 10010 (Other, country not specified). Where there are multiple mentions, only the first country named was coded.

LEADPCT: Percent of adult participants serving in leadership role in past 12 months

Of the [NUMBER FROM NUMADLTS] regularly participating adults, how many would you say have served in some sort of leadership role in this congregation - such as chairing a committee, serving as an officer, teaching a class, or other leadership roles - within the past 12 months? Remarks: If an informant replied with an absolute number rather than a percent, we calculated a percent for LEADPCT. In 1998, respondents were asked for an absolute number, so we calculated the percent for LEADPCT.

LDRGAY: Leadership privileges for openly gay or lesbian couple in committed relationship

[2006-07 wording] An openly gay or lesbian couple in a committed relationship? (Regarding leadership, if they were otherwise qualified, would the following types of people be permitted to hold all of the volunteer leadership positions open to other members:) [2012 wording] Regarding leadership, if they were otherwise qualified, would an openly gay or lesbian couple in a committed relationship be permitted to hold all of the volunteer leadership positions open to other members? Remarks: In 2012, this item was not asked if a congregation reported that openly gay or lesbian persons in a committed relationship would not be permitted to be full-fledged members (MBRGAY=2). To maintain consistency across waves, if a congregation reported that openly gay or lesbian persons in a committed relationship would not be permitted to be full-fledged members (MBRGAY=2), LDRGAY was set at 2.

Location: 2546-2547 (width: 2; decimal: 0)

Variable Type: numeric

(Range of) Missing Values: -3 , -2 , -1 , ..

CONFLCT1: Conflict within past 2 years for which special meeting was called

In every congregation, disagreements and conflicts occasionally arise. Within the last two years, has your congregation experienced a conflict for which a special meeting was called specifically to deal with the disagreement? Remarks: This item was asked in 2006-07, only if a congregation reported a conflict that required a special meeting (CONFLCT1=1). Verbatim responses to item 279a (this item) were coded into a series of dichotomous variables. Note that these variables are not mutually exclusive. A conflict about "managing school finances," for example, would be coded 1 on EDUSCH1 and MONEY1. If a congregation reported no conflict (CONFLCT1=2), these variables were set at zero.

Value	Label	Unweighted Frequency	%
1	Yes	632	11.9%

Variable Type: numeric

(Range of) Missing Values: -3 , -2 , -1 , .

EDUSCH3: Conflict (clergyperson or leader left) about education/schools

Education/school (What was this conflict about? (Within the last two years, has your congregation experienced a conflict that led to the departure of a clergyperson or other religious leader?)) Remarks: This item was asked only in 2006-07, if congregations reported a conflict that led to the departure of a religious leader (CONFLCT3=1). Verbatim responses to item 280d were coded into a series of dichotomous variables. Note that these variables are not mutually exclusive. A conflict about "managing school finances," for example, would be coded 1 on EDUSCH1 and MONEY1. If a congregation reported no conflict (CONFLCT3=2), these variables were set at zero.

Value	Label	Unweighted Frequency	%

N	-	5	0.1%
Total		5,333	100.0%

This variable has 5,333 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

Location: 2616-2616 (width: 1; decimal: 0)

Variable Type: character

NCSSPAN: National Congregations Study interview conducted in Spanish

NCS interview was conducted in Spanish -- Remarks: Beginning in 2006-07, the NCS interview was available in Spanish.

Value	Label	Unweighted Frequency	%
0	No	2809	52.7%
1	Yes	28	0.5%
Total		2,837	53.2%
Value	Missing Data	Unweighted Frequency	%
-3	No answer	0	0.0%

Value	Missing Data	Unweighted Frequency	%
-2	Don't know	0	0.0%
-1	Refused	0	0.0%
.	-	2496	46.8%
	Total	2,496	46.8%

This variable has 2,837 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 0.00
- Maximum: 1.00

Location: 2617-2618 (width: 2; decimal: 0)

Variable Type: numeric

(Range of) Missing Values: -3 , -2 , -1 , .

IWLANGUAGE: Language of the interview

Was the interview conducted in English or Spanish?

Value	Label	Unweighted Frequency	%
1	English	1234	23.1%
2	Spanish	6	0.1%
3	Combination of English and Spanish	11	0.2%
5	Other	0	0.0%
	Total	1,251	23.5%

Value	Missing Data	Unweighted Frequency	%
.	-	4082	76.5%
	Total	4,082	76.5%

This variable has 1,251 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 1.00
- Maximum: 3.00

Location: 2619-2619 (width: 1; decimal: 0)

Variable Type: numeric

HISPOVER: Congregation selected for National Congregations Study as part of Hispanic over-sample

Congregation selected for NCS as part of Hispanic over-sample -- Remarks: This variable was constructed to note the congregations that were selected for inclusion in the NCS-III to achieve an over-sample of congregations attended by self-identified Hispanic GSS respondents. These congregations would not have been otherwise included in the NCS sample.

Value	Label	Unweighted Frequency	%
0	No	1254	23.5%
1	Yes	77	1.4%
	Total	1,331	25.0%
Value	Missing Data	Unweighted Frequency	%
.	-	4002	75.0%
	Total	4,002	75.0%

This variable has 1,331 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 0.00
- Maximum: 1.00

Location: 2620-2620 (width: 1; decimal: 0)

Variable Type: numeric

WHICH SITE: Multi-site location respondent had in mind when answering questions about the congregation as a whole

If congregation is multi-site (MULTISITE_2=1), which site or sites did R have in mind when answering questions about the congregation as a whole?

Value	Label	Unweighted Frequency	%
1	All of them treated together as one congregation	122	2.3%
2	One of them	48	0.9%
3	Respondent answered some questions with all sites in mind; answered other questions with one site in mind	22	0.4%
4	Other	6	0.1%
	Total	198	3.7%
Value	Missing Data	Unweighted Frequency	%
.	-	5135	96.3%
	Total	5,135	96.3%

This variable has 198 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 1.00
- Maximum: 4.00

Location: 2621-2621 (width: 1; decimal: 0)

Variable Type: numeric

WT_ALL4_CONG_IGN: Weight for all four waves, ignores duplicate nominations, congregation's perspective

Weight for all cases, including the panel cases, ignoring duplicate nominations. Allows users to analyze data at the congregation level. Remarks: See Appendix A of P.I. documentation for details on weights.

This variable has 5,333 valid cases out of 5,333 total cases.

- Mean: 1.000000080818
- Minimum: 0.001235934255
- Maximum: 22.781436580130
- Standard Deviation: 1.720008703181

Location: 2622-2636 (width: 15; decimal: 12)

Variable Type: numeric

WT_ALL4_CONG_DUP: Weight for all four waves, includes duplicate nominations, congregation's perspective

Weight for all cases, including the panel cases, taking account of duplicate nominations. Allows users to analyze data at the congregation level. Remarks: See Appendix A of P.I. documentation for details on weights.

This variable has 5,333 valid cases out of 5,333 total cases.

- Mean: 0.999999876782
- Minimum: 0.001172826261
- Maximum: 20.877232810553
- Standard Deviation: 1.724201305884

Location: 2637-2651 (width: 15; decimal: 12)

Variable Type: numeric

WT_ALL4_ATTENDEE: Weight for all four waves, includes duplicate nominations, attendee's perspective

Weight for all cases, including the panel cases, which allows users to analyze the data at the attendee level. Remarks: See Appendix A of P.I. documentation for details on weights.

Location: 2907-2921 (width: 15; decimal: 13)

Variable Type: numeric

POOR30_ALL4: At least 30% below poverty line in congregation's census tract

At least 30% of people in the congregation's census tract are below the official poverty level. Remarks: The U.S. Census did not use a long form in 2010, so the 2012 and 2018-2019 versions of this variable are therefore based on 5-year estimates, at the tract level, from the 2007-11 and 2013-2017 American Community Surveys (ACS), respectively. Because the ACS samples a smaller proportion of the population than did the long-form census, the variability around the point estimates is likely greater. Analysts studying change over time should keep this in mind.

Value	Label	Unweighted Frequency	%
0	No	4647	87.1%
1	Yes	682	12.8%
	Total	5,329	99.9%
Value	Missing Data	Unweighted Frequency	%
.	-	4	0.1%
	Total	4	0.1%

This variable has 5,329 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.

- Minimum: 0.00
- Maximum: 1.00

Location: 2922-2922 (width: 1; decimal: 0)

Variable Type: numeric

BLCK80_ALL4: At least 80% African American in congregation's census tract

At least 80% of people in the congregation's census tract are African American. Remarks: The 2018-2019 data used the 2013-2017 American Community Survey to construct this measure. Because the ACS samples a smaller proportion of the population than did the longform census, the variability around the point estimates is likely greater. Analysts studying change over time should keep this in mind.

Value	Label	Unweighted Frequency	%
0	No	5082	95.3%
1	Yes	248	4.7%
	Total	5,330	99.9%
Value	Missing Data	Unweighted Frequency	%

- Minimum: 1.00
- Maximum: 2.00

Location: 2924-2924 (width: 1; decimal: 0)

Variable Type: numeric

URBAN_ALL4: Congregation is in predominantly urban, suburban, or rural census tract

The congregation's census tract is predominately urban, predominately suburban, or predominately rural [based on census data]. Remarks: The construction of this variable for the 2018-2019 data was based on the Census Bureau's definitions: "Inside Urbanized Areas" indicates areas comprising 50,000 people or more. "Inside Urban Clusters" indicates areas comprising at least 2,500 and less than 50,000 people.

Value	Label	Unweighted Frequency	%
1	Urban	3669	68.8%
2	Suburban	691	13.0%
3	Rural	970	18.2%
	Total	5,330	99.9%
Value	Missing Data	Unweighted Frequency	%
.	-	3	0.1%
	Total	3	0.1%

This variable has 5,330 valid cases out of 5,333 total cases.

Percentages for valid and missing data are based on 5,333 total cases.
